SUMMARY

Software Developer experienced in building scalable systems and **microservice architecture** using **Golang** ,**gRPC and RabbitMQ**. Proficient in data management (**PostgreSQL** and **Redis**) and developing modern, high- performance interfaces with **Next.js**. Proven track record in **third-party integration** (Midtrans, Xendit, Doku, Biteship, blibli) with a strong focus on performance and security.

WORK EXPERIENCE

Backend Developer, PT PLN Icon Plus   **Sep 2025 - Present**

- Developed and maintained scalable system using Golang, ensuring high performance and reliability.
- Implemented **microservice architecture** using gRPC for inter-service communication and **RabbitMQ for asynchronous message queuing/communication**Integrated
- Redis caching mechanisme.
- Designed and optimized database schemas in PostgreSQL.

Backend Developer, PT Kreanova Pharmaret   **Dec 2024 – Sep 2025**

- •Developed and maintained scalable e-commerce APIs using Golang, ensuring high performance and reliability.
- Integrated Redis caching mechanisme.
- Designed and optimized database schemas in PostgreSQL.

Production Operator, PT Yamaha Musical Products Asia   **Jun 2023 - Jun 2024**

- Performed high-precision buffing and polishing on piano bodies to achieve a flawless, mirror-like finish.
- Ensured consistent quality control by inspecting and refining surfaces to meet Yamaha's strict manufacturing standards.

Production Operator, PT Yamaha Music Manufacturing Asia   **Aug 2020 - Feb 2023**

- Performed high-precision buffing and polishing on piano bodies to achieve a flawless, mirror-like finish.
- Ensured consistent quality control by inspecting and refining surfaces to meet Yamaha's strict manufacturing standards.

EDUCATION

Informatics Engineering in Indraprasta PGRI University   **Jun 2022 - Present**

University of Engineering and Technology

- Gained comprehensive knowledge in software development, data structure and networking

ADDITIONAL INFORMATION

- **Technical Skills:** Golang, PostgreSql, Redis, MySql, Java, Git, MongoDb, NextJs, Docker
- **Languages:** Indonesia, English
- **Certifications:** Bootcamp Backend golang, Linux
